

Wooden round rods (not octagons !) (daz_1901)

Ø 50mm, the upper part is narrowed down to Ø app. **38mm**

- all metal parts must be painted to prevent rust stains on the tent canvas!

Quantity of rods

8 x 185cm (6 corners + 2 pergola)

- the last upper 5cms are narrowed down.

1 x 350cm (central rod)

- the central rod has at the bottom one metal foot (see the photo down on the left side). To make the transport easier, the rod is split in two halves with central metal connectors (30cm metal tube, see the photo below). The last upper 10cms are narrowed down.
