

Wooden round rods (not octagons !) (daz_2201)
Ø 50mm, the upper part is narrowed down to Ø app. **38mm**

Quantity of rods:

12 x 185cm – 10*“wall rods” + 2* pergola rods. The last upper 5cms are narrowed down.

2 x 320cm – central rods incl. the metal foot (see the photo down on the left side). To make the transport easier, the rods are split in two halves with central metal connectors (metal tube, see the photo below). The last upper 10cms are narrowed down.
